SEAFOOD INDUSTRY LABOR PRINCIPLES

A COMMITMENT BY NFI MEMBERS

WE BELIEVE

- There is no place for labor abuse in the seafood supply chain. Every worker should have freedom of movement and no worker should be coerced to work.
- US and International labor laws should be stringently enforced.
- All who work in the seafood supply chain should be treated fairly, humanely and with dignity.

WE SUPPORT

- Transparency throughout the entire seafood supply chain.
- Diligent, documented processes to hold suppliers accountable.
- Efforts to improve the lives of the people who provide the world with seafood.
- Immediate and thorough investigation of claims of labor abuse.

WE COMMIT

- To enhanced collaboration and sharing of best practices among supply chain partners.
- NFI Members, together with their global suppliers, certifying entities, and any other service providers, will apply these principles.

*Adopted by the NFI Executive Committee
of the Board of Directors, March 22, 2024*
